Using the Final Sequencer

Setting up the meeting

On the meeting screen, set the **Final Rounds** to the largest number of rounds that any final will run.
E.g. if running 3-leg for Electric, set it to 3 Rounds of finals.
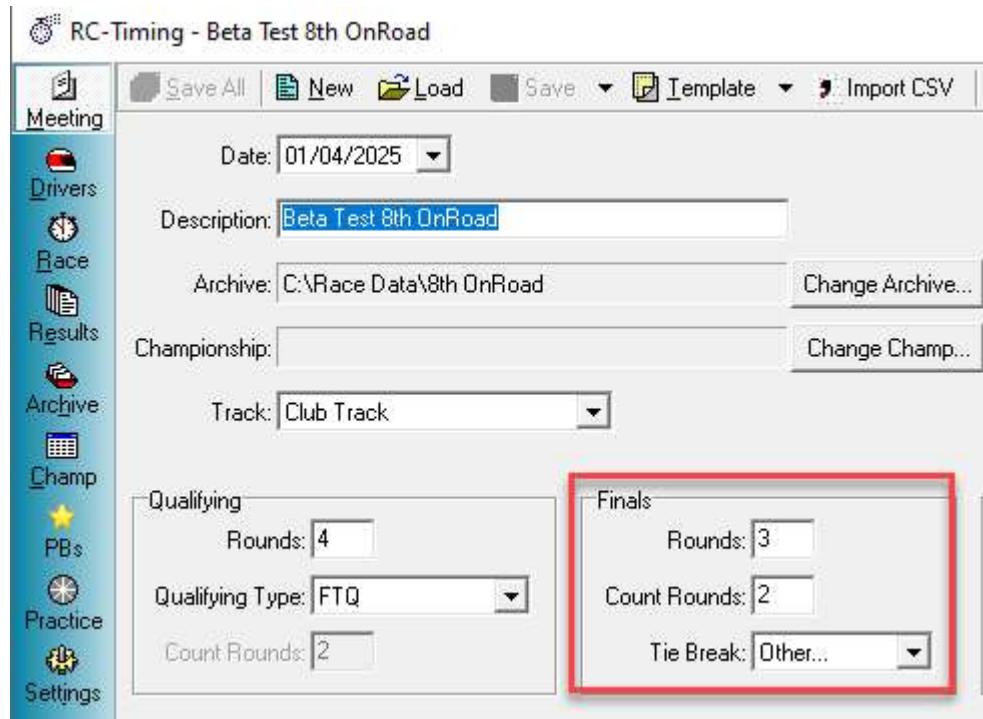

Opening the Final Sequencer

Once you've sorted the heats, you can then set up the Final Sequence.
Doing this allows you to get a more accurate timetable as it will only count up finals in the sequence.

Or you can wait till the finals are sorted and set up the sequence then.

Click the little arrow next to the **Sort** button then click **Edit Final Sequence**.
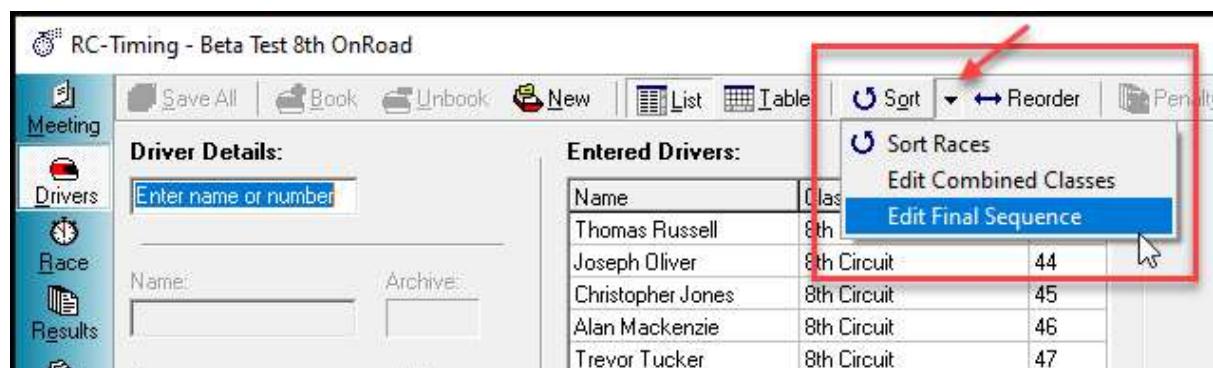

Enabling the Sequencer

Check the **Use Final Sequence** check-box to enable the sequencer.

Then click **Reset to All Finals** to start out with a default sequence containing all races:
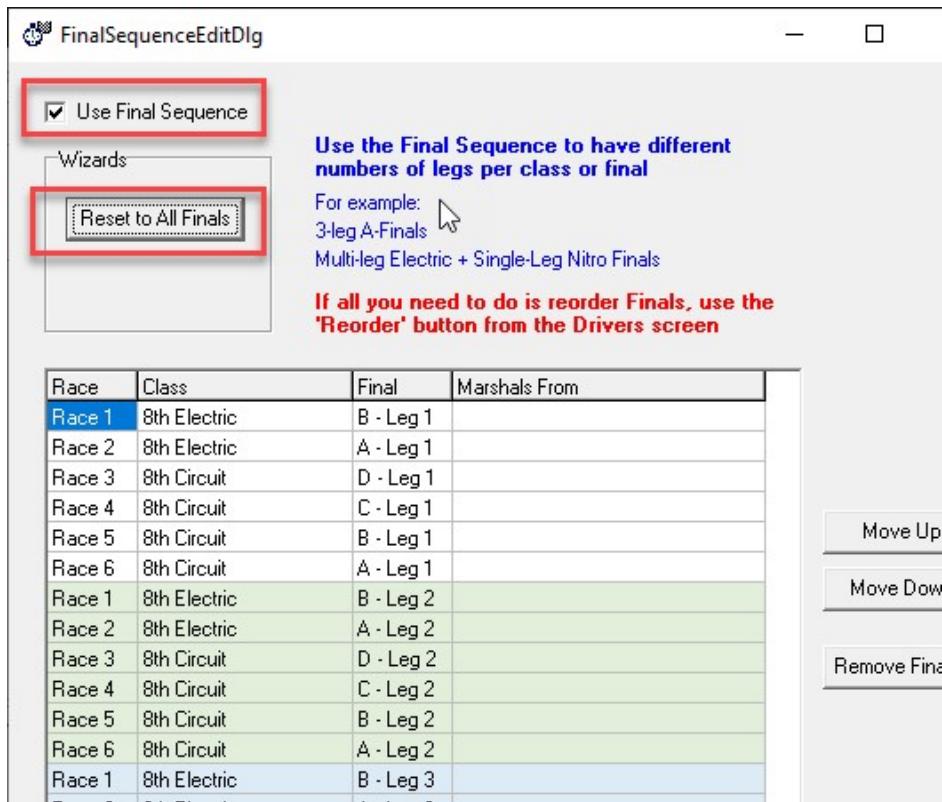

Remove Unwanted Finals

Select the unwanted finals. Legs are colour-coded to make them easier to spot (Green=Leg2, Blue=Leg3).

Tip: Hold down Shift while clicking to allow multiple selections.

Then click **Remove Finals** to remove them from the Sequence.

E.g. to remove Leg 2 of the '8th Circuit' finals:
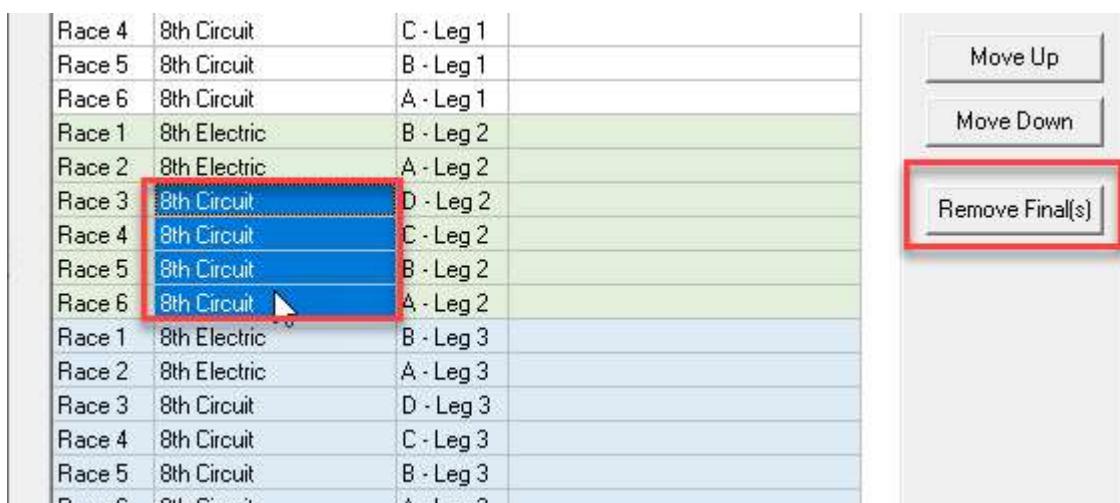

Reordering Finals

Select a single final. The click **Move Up** or **Move Down** to move it to the desired position in the sequence:

Marshals

If a custom marshalling setup is required, select the marshals for a race using the dropdown in the last column:

Note: this sets which race the marshals are **from** for that final. **Not** which race those drivers will marshal.

Race Numbering

Note that races keep their original numbers. The Final Sequencer essentially automates the skipping backwards and forwards between races and rounds. So in this example, after Race 4... Race 1 is back on for Leg 2.

Example final listing:

Race 1 - 8th Electric B Final - Leg 1

Race 2 - 8th Electric A Final - Leg 1

Race 3 - 8th Circuit D Final (20m)

Race 4 - 8th Circuit C Final (20m)

Race 1 - 8th Electric B Final - Leg 2

Race 2 - 8th Electric A Final - Leg 2

Race 5 - 8th Circuit B Final (20m)

Race 6 - 8th Circuit A Final (30m)

Race 1 - 8th Electric B Final - Leg 3

Race 2 - 8th Electric A Final - Leg 3
